# NHLT550LH

55" Outdoor sunlight readable TV/monitor
Full HD, 1920 x 1080, 2500CD, Vandal proof
VESA 400mm x 400mm, Watertight connector

Features

- Rainproof, dustproof outdoor IP65 LCD
- Brightness : 2500cd, sunlight readable
- Public display professional panel
- Weatherproof, waterproof cable
- Ambient light sensor controls brightness
- Resolution: Full HD 1920 x 1080
- Outdoor temperature: -30°C~50°C
- Auto cooling system, auto heating system
- Average power: 500W, 60Hz, 110–240V
- Easy inputs: DVI-D, HDMI, VGA, RS-232C
- Tempered glass with anti-reflection film
- Aluminum housing, powder coated steel structure

Dimension

820

1334

Specification

Category	Description
Certification	FCC Class B verification
Overall physical dimensions	1334mm(W) * 820mm(H) * 203.7mm(D) (with wall frame)
Screen active area	1209.6mm(W) * 680.4mm(H)
Display net weight per unit	90.5kg
Resolution (minimum 720p)	1920 x 1080
Aspect Ratio	16:9
Display Colors	16.7M
Brightness (cd/m²; typ.)	2500
Contrast Ratio	5,000:1
Response Time (ms; GTG)	6
Viewing Angle	178°/178°
Lifetime (hours)	50,000
Backlight type	LED
Dimming	Depending on environment brightness
Color temperature	Custom / Cool2 / Cool1 / Normal / Warm1 / Warm2
Calibration	At factory or via RS232C
Refresh rate	120 Hz
Signal input	DVI-D, HDMI, VGA, RS-232C
OSD Language	10 languages
Operating Voltage	100 – 240VAC
Consumption (max.)	500W (Without PC)
Consumption per nits (max.)	0.2W (w/o heater)
Heater block (with PC Case)	850W / Peak 1.2KW
Operation temperature	-30℃ ~ +50℃
Storage temperature	-40℃ ~ +60℃
Humidity	20~80%
Ventilation	Low noise fan and heater
Warranty length	3 years warranty
Ingress protection	IP 65
Ambient control technologies	Auto cooling, auto heating, auto brightness sensor Anti vandal glass, anti reflection coating
Display mode	Landscape
Safety glass	Tempered glass with AR film
Housing	Powder coated surface treatment
